New York, Nov. 26.—Lyman Allen, an old man, was found dead in his bed at Taylor's Hotel, Jersey City, yesterday morning. He was we's merchant worth \$600,000. He lived there 5 years in a miserly manner. He took but one meal a day and his wardrobe at his death was velued at 25 cents. His friends in Newton, Conn., get his money.

New York, Nov. 22—Collector Grinnell has received additional information regarding the perpetration of the most stupendons frauds against the Government by mercantile firms in this city. Over two hundred respectable merchants, many occupying prominent positions, are now under suspicion of having participated in these frauds, which extend through several months during the last Administration.

MERIT REWARDED—It must be a source of gratification and pride to the inventor, after years of study and toil, to have exceed server, bis efforts, and know his labors are observed. MARAVILLA COCOA. SOLE PROPRIETORS,

TAYLOR BROTHERS LONDON.

THER COCOA (035 CACAO) OF MARKA-VILLA is the true THEOGROMA LINNÆU3. Cocoa is indigenous to South America, of which Maravilla is a favored portion. TAYLOI BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by skildid application of their soluble principle and elaborate machinery, produced what B. so undentably the perfection of prepared decay, that it has not only secured the preference of homosopaths and cocoa-drikers enerally, but many who had thitherto not found any preparat on to suit them, have after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, lunchen, &c.

"AN UNPRECEDENTED SUCCESS."

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough secess had been achieved until Mersar Tay or Brothers discovered the extraordinary qualities of "Maravilla" Cocoa. Adapting their perfect system of preparation to this the linest of all species of the Theobroma, they have predicted an article which empersedes every other Cocoa is the market. Entire solubility, a delicate aroma and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Occoa above all others for Homosopathia and Invalvia we could not recomme "d a more agreeable or valuable beverage."

Red River Rebellion. A nation a little over two years old with a rebellion on its hands! It will have been seen from the dispatches which we published yesterday that there is rather more in the Red River revolt than we at first supposed. We correctly surmised that the recalcitrant half-breeds were merely the tools of more designing persons; yet there still exists a good deal of mystery about the silent agency by which these desperadoes are being hounded on to acts of outlawery and violence. It would not surprise us in the least to learn that Fenianism has much to do with the matter. It is at least satisfactory to know that the movement does not command the sympathy and support of the more respectable and intelligent settlers—that even the English half-breeds stand aloof from it. Six hundred of these rebellious spirits, it is said, are banded together under an oath to resist the Canadian authorities, calling themselves Liberators! This cortainly smacks somewhat of Fenianism.
That six hundred half-breeds, without the sympathy and support of the set-tlers, can become a very formidable force, much less successfully administer the affairs of the territory for any con. siderable period, would appear to be altogether proposterous; but that they may succeed in inflicting serious injury cannot be denied; and that the work of dislodging and subduing them may involve both time and expense is equally ob-vious In truth, the whole matter is surrounded with considerable difficulty. Did the means of readier communication through British territory exist, such a force, either regular or volunteer, as would make short work of these Libera ators could easily be sent into the set. tlement. But the only available com-munication at present is through the United States; and, apart from the question of permission to a military force so pass, such a passage might well be rendered hazardous by the emissa-ries of the Fenians, who are strong in the Western States. In all probability whatever force is found necessary will whatever force is found necessary will be raised from among the settlers them-selves, organized and led by officers from Canada, possibly with a sprink-ling of regulars or Canadian volunteers. This question will not fail to impress very strongly upon the Canadian and Imperial Governments, in the very our set, the necessity of continuous railway communication through the Dominion—the folly, in fact, of attempting to govern such a wide-spread territory without such ready means of communication. This little rebellion—this tempest in a tea-pot, may possibly sect as much as a railway from sibly cost as much as a railway from Lake Superior to Fort Garry. Talking about cost, who is to meet the expense of this revolt? Not the Canadian Government, surely; for the Canadian-Government, surely; for the territory has not yet been banded over. It is in reality still in the possession of the Hudson Bay Company. The illness of Governor McTavish—a circumstance to be regretted in any event—appears to be peculiarly unfortunate at such a moment, as, with the experience and influence he cannot have failed to acquire, that gentleman would have been especially fitted to counteract the poison instilled into the minds of these ignorant half-breeds by evil disposed plot-ters. Meanwhile the Liberators would appear to be making common cause with the Hudson Bay Company, in the disposition of their goods. We congratulate our contemporary of the Nor Wester upon his appointment of Printer to the Liberators. The position must be quite a 'nobby' affair when the printers are attended by a 'guard of honour.' It is not improbable that this unfortunate difficulty may be benefit to a configuration and loss be brought to an earlier and less disastrous termination than many fear. The statement that there was a strong organization awaiting a favorable op-portunity to declare for Governor McDougall looks hopeful; and it is by no means improbable that we shall soon hear of the complete suppression of the revolt by means of the loyal settlers themselves. In any case, we hope the authorities at Ottawa will profit by this little bit of experience, both as regards its bearing upon political liberty and the means of facile locomotion. It is a serious responsibility for a young is a serious responsibility for a young nation to assume the government of so wast a territory; and that responsibility is increased rather than lessened by the circumstance of the central and western portions being so largely inhabited by a semi-barbarous people. Stretching along the Republican border, as it does, the country must possess liberal political institutions; and the Dominion Government must be prepar-ed to maintain these institutions with a firm hand. The government must be liberal and benign; but it must also be strong and firm. To this end continuous railway and telegraphic communication are indispensable.

About 300 female voters are now on the register of municipal voters at Lincoln, England. At Stamford the number of female municipal voters for the ensuing year will be 150. At East Retford, out of 514 municipal voters for 1869-70, eight will be women. Norwich the municipal register for 1869-70 will comprise upwards of 10,000 about 1300 of the voters will be women.

STEALING AT THE FIRE. - A sailor wa brualing at the Fire.—A sailor was brought before the Magistrate yesterday upon a charge of stealing a book—the property of Mrs Cox—saved from the fire at the Crowa Hotel. The prisoner pleaded not guilty and preserved a defiant, impudent air towards the Court and witnesses. The theft was fully proven, and the prisoner exclaimed, 'Well, if you wants to punish me you can punish me, I've got no show here.' The Magistrate then told the man that if guilty he had better plead so; his punishment would be lighter than if sent for trial to a higher Court. 'Well, then,' said the hardened sinner, 'I pleads guilty, myself.' Ho was then eenteneed to three months' imprisonment, and left the Court with a grin on his face.

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

More concened to this, as Disperbal, Disperbal, and the various Ulcerous and factions of the muscular and nervous systems.

Signification is the continuous and Mercurial Diseases are cured to be obtained and mercurial Diseases are cured to be obtained and the made by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhea or Whites, Ulcrine Ulcerations, and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied grafts. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the ranking poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Stepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

Cough, Bronchitis, Asthma, and Consumption.

Trobably never before in the whole history of medicine, has anything won so widely and so deeply remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption highly and indeed as all are sometimes and den attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the discase seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstimate of them yield to it. When nothing cles could reach them, undee to Cherry Pectoral they subsiste and during dispersion of the Cherry Pectoral is always relieved and often wholly cured by it.

Honoichitis is generally cured by taking the Cherry Pectoral in small and frequent foloses. So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.
